

The Good Shepherd Catholic Primary School

*Following Jesus,
The Good Shepherd,
in all we say and do*

Year 2 Calculation Policy 2024 – 2025

Following Jesus, The Good Shepherd, in all we say and do

Year 2			
	Block 1	Block 2	Block 3
Calculation content	<p>ADDITION AND SUBTRACTION (UNIT 1)</p> <ul style="list-style-type: none">• Number bonds for 20 (r)• Add a two-digit number and ones – no exchanging• Add multiples of ten• Friendly number pairs• Subtract ones from a two-digit number – no exchanging• Subtract multiples of ten• Subtract ones from a multiple of ten• Add single digit numbers bridging ten (eg $8 + 6$)• Subtract single digit numbers from 11-18 bridging ten (eg $15 - 8$)	<p>MONEY (UNIT 1)</p> <ul style="list-style-type: none">• Finding the total (two-digit amount + 1 digit amount (no exchanging); add multiples of ten pence; adding single digit pounds bridging ten pounds)• Change (change from 20p; change from 50p) <p>ADDITION AND SUBTRACTION (UNIT 2)</p> <ul style="list-style-type: none">• Add a two-digit number and ones – bridging the next ten (eg $28 + 6$)• Add 3 one-digit numbers• Subtract ones from a two-digit number – making the previous ten (eg $25 - 8$)• Adding 2 two-digit numbers• Subtracting a two-digit number from a multiple of ten• Subtracting a two-digit number from a two-digit number	<p>CALCULATION UNIT</p> <ul style="list-style-type: none">• Adding two 2-digit numbers (r)• Subtracting a 2-digit number from a 2-digit number (r) <p>MONEY (UNIT 2)</p> <ul style="list-style-type: none">• Adding coins (finding different combinations to make totals)• Adding notes (adding multiples of ten and five)• Subtracting amounts of money (eg $£60 - £15 = £60 - £10 - £5$)

Following Jesus, The Good Shepherd, in all we say and do

Year 2			
	Block 1	Block 2	Block 3
Strategies/ methods	<p><u>Number bonds for 20</u> Partitioning first addend into tens and ones then combining ones, eg: $18 + 2 = 10 + 8 + 2$. NB Number bonds for 20 are revisited early on in the Block 2 unit on money.</p> <p><u>Add a two-digit number and ones – no exchanging</u> Counting on; partitioning first addend into tens and ones, then combining ones; column method.</p> <p><u>Add multiples of ten</u> Use known facts, eg: $3 + 2 = 5$ so 3 tens + 2 tens = 5 tens.</p> <p><u>Friendly number pairs</u> Friendly numbers fit together to make a number that is easy to work with. Re-ordering is often used to simplify calculations. Eg: $14 + 30 + 6$ becomes $14 + 6 + 30$ which becomes $20 + 30$.</p>	<p><u>Finding the total</u> Two-digit amount + 1 digit amount (no exchanging) using partitioning, eg: $54p + 5p = 50p + 4p + 5p$. Column method used as well.</p> <p>Add multiples of ten pence using representations of coins.</p> <p>Adding single digit pounds bridging ten pounds, eg: $£8 + £6 = £8 + £2 + £4$</p> <p><u>Change</u> Change from 20p using tens frames and recall of number bonds for 20.</p> <p>Change from 50p using base 10 and mental calculation to subtract multiples of five and ten from 50p.</p>	<p><u>Calculation unit</u> Revisits methods from Block 2.</p> <p><u>Adding coins</u> Children use their mental calculation skills to find totals supported by representations of coins.</p> <p><u>Adding notes</u> Children use their mental calculation skills to add multiples of ten and five pounds supported by representations of bank notes.</p> <p><u>Subtracting amounts of money</u> Children subtract amounts using notes and coins. The core strategy is to partition the subtrahend, eg: $£60 - £15 = £60 - £10 - £5$</p>

Following Jesus, The Good Shepherd, in all we say and do

Year 2			
	Block 1	Block 2	Block 3
Strategies/ methods	<p><u>Subtract ones from a two-digit number – no exchanging</u> Counting back; partitioning minuend; column method.</p> <p><u>Subtract multiples of ten</u> Use known facts, eg: $5 - 2 = 3$ so $5 \text{ tens} - 2 \text{ tens} = 3 \text{ tens}$.</p> <p><u>Subtract ones from a multiple of ten</u> Use known facts, eg: $10 - 2 = 8$ so $30 - 2 = 28$.</p> <p><u>Add single digit numbers bridging ten</u> Making the next ten, eg: $8 + 6 = 8 + 2 + 4$.</p> <p><u>Subtract single digit numbers from 11-18 bridging ten</u> Making the previous ten, eg: $15 - 8 = 15 - 5 - 3$.</p>	<p><u>Add a two-digit number and ones</u> Making the next ten, eg: $28 + 6 = 28 + 2 + 4$; expanded column method; compact column method.</p> <p><u>Add 3 one-digit numbers</u> Add 3 one-digit numbers Children use their developing ability to make the next ten to add 3 one digit numbers. The core representation is the tens frame, eg: $9 + 7 + 5 =$ $16 + 5 =$ $16 + 4 + 1 = 21$</p> <p><u>Subtract ones from a two-digit number</u> Making the previous ten; compact column method.</p> <p><u>Adding 2 two-digit numbers</u> Partitioning addends into tens and ones and combining; expanded column method; compact column method.</p>	

Following Jesus, The Good Shepherd, in all we say and do

Year 2			
	Block 1	Block 2	Block 3
Strategies/ methods		<p><u>Subtracting a two-digit number from a multiple of ten</u> Partitioning the subtrahend, eg: $30 - 19 = 30 - 10 - 9$.</p> <p><u>Subtracting a two-digit number from a two-digit number</u> Partitioning the subtrahend; compact column method.</p>	

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

$$8 + 2 = 10 \bullet 18 + 2 = 20$$

Number bonds for 20

tens frames

$$8 + 2 = 10$$

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

$$32 + 4 = 36$$

Add a two-digit number and ones - no exchanging

Add the ones

Add the tens

$$\begin{array}{r}
 32 \\
 + 4 \\
 \hline
 36
 \end{array}$$

column method supported by base ten

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

$$3 + 2 = 5 \quad \bullet \quad 30 + 20 = 50$$

Add multiples of ten

$$3 + 2 =$$

$$3 \text{ ones} + 2 \text{ ones} =$$

$$5$$

$$5 \text{ ones}$$

$$30 + 20 =$$

$$3 \text{ tens} + 2 \text{ tens} =$$

$$30 + 20 =$$

$$50$$

$$5 \text{ tens}$$

$$50$$

Base ten supports
understanding of
scaling

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

Friendly number pairs

$4 + 20 + 6 = 30$

$2 + 30 + 8 = 40$

$3 + 30 + 7 = 40$

number bonds from Year 1

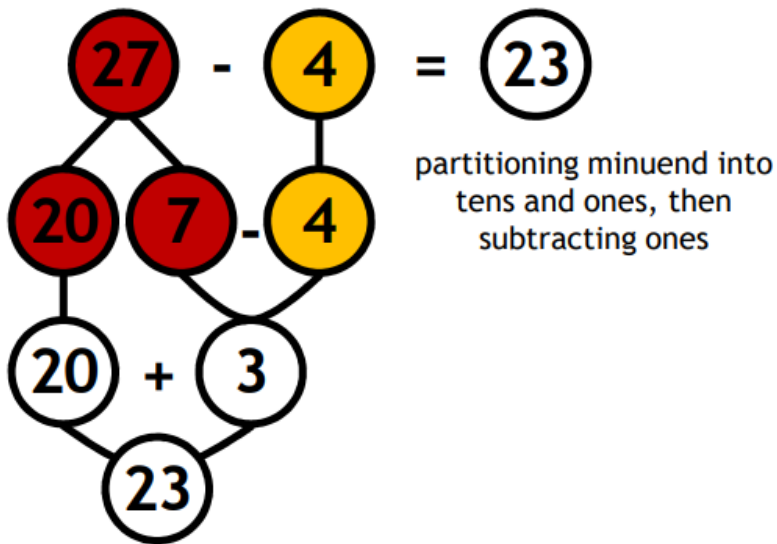

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1 27 - 4 = 23

Subtract ones from a two-digit number - no exchanging

number track - counting back

- Subtract the ones
- Subtract the tens
- There are no tens to subtract...

column method supported by base ten

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

$$5 - 2 = 3 \bullet 50 - 20 = 30$$

Subtract multiples of ten

$$5 - 2 = 3$$

$$5 \text{ ones} - 2 \text{ ones} = 3 \text{ ones}$$

$$50 - 20 = 30$$

$$5 \text{ tens} - 2 \text{ tens} = 3 \text{ tens}$$

$$\begin{array}{r} 50 \\ \underline{- 20} \\ 30 \end{array}$$

base ten supports understanding of scaling

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1

$10 - 2 = 8$ • $30 - 2 = 28$

Subtract ones from a multiple of ten

$$\boxed{10} - \boxed{2} = \boxed{8}$$

$$\boxed{30} - \boxed{2} = \boxed{28}$$

tens frames representations support
understanding of related facts

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 1 **$8 + 7 = 15$ • $15 - 7 = 8$**

Add single digit numbers bridging ten/ subtract single digit numbers from 11-18 bridging ten

+

=

numeric representations

Following Jesus, The Good Shepherd, in all we say and do

Year 2 - Block 2

$$26 + 6 = 32$$

Add a two-digit number and ones

Add a two-digit number and ones

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
