The Year 6 Team have a wealth of experience at completing the KS2 SATs and would like to share some best practices with you. We are aware families like to approach things differently, and because of this we have included, below, ways in which you may choose to help and support your child. Whichever way you feel is most suited to your child, we would encourage the 'little and often' method. We find this keeps up interest and aids in the retention of information being learnt. Remember also, please never hesitate to ask for direction or resources – we will always aim to help where we can.
